Sweave Example 1

Friedrich Leisch

November 19, 2013

In this example we embed parts of the examples from the `kruskal.test` help page into a LaTeX document:

```
> data(airquality , package="datasets")
> library ("stats")
> kruskal.test(Ozone ~ Month, data = airquality)

        Kruskal-Wallis rank sum test

data:  Ozone by Month
Kruskal-Wallis chi-squared = 29.3, df = 4, p-value = 6.901e-06
```

which shows that the location parameter of the Ozone distribution varies significantly from month to month. Finally we include a boxplot of the data:

```
> library ("graphics")
> boxplot(Ozone ~ Month, data = airquality)
```
